Summary of the Arts Award Discover, Theodor Kern Portraits trail
This is a booklet, packed with activities which, once completed, will enable children to attain a Discover level Arts Award. We have planned the activities carefully and designed a log book to make it easy for everyone to succeed.

Important information
In order to achieve the Arts Award it is essential that all parts of the booklet are completed by the child. If you have more than one child in your family or group, you will need to print and complete a booklet for each child who wishes to achieve the Discover Arts Award. We need your assistance to encourage and help the children as they go. If a child has English as an additional language, or struggles with writing, you can assist with noting down what the children say. All art work must be completed by the child.

To receive the certificates we have to register each child with Trinity, Arts Award. We ask for the relevant information in the cover sheet of the booklet, please ensure we have all the children's names spelt correctly for the certification process. This information will only be used for applying to Arts Award for the certificates.

Please photograph the children whilst they complete their booklet, and stick pictures to the booklet or on additional sheets as evidence of them completing the virtual tour of Wardown and making art at home. These photographs are **ONLY** for the children's booklets and **WILL NOT** be used in any publication, internal or external, unless additional permission to do so is sought by The Culture Trust, Luton.

Family led activity
One of the activities is to find out about an Artist and their work. Children can use links to websites (provided in the booklet or artist fact sheets) to find out about Theodore Kern and complete their own desktop research about the artist. Knowledge of the Artist or portraiture in advance is not required, you will support the children to use the information given to them from our website or using online research to complete the questions.
